10:30 - 13:00 General Session 3

JÁNOS DEMETER

DOUBLE DIAMOND

János Demeter discovered his passion for figure skating at an early age and competed in several European championships. He later toured the world as a professional figure skater with Holiday on Ice.

Despite his success, he realized that income was often determined not by performance, but by where you came from. That's why he chose the **Amway business** – an opportunity where effort and performance truly matter. Today, János is a **successful Double Diamond**, living with his family near Atlanta, Georgia, and enjoying the freedom to work from anywhere.

> **If I had known back then how big this opportunity really was, I would have worked three times as hard.**

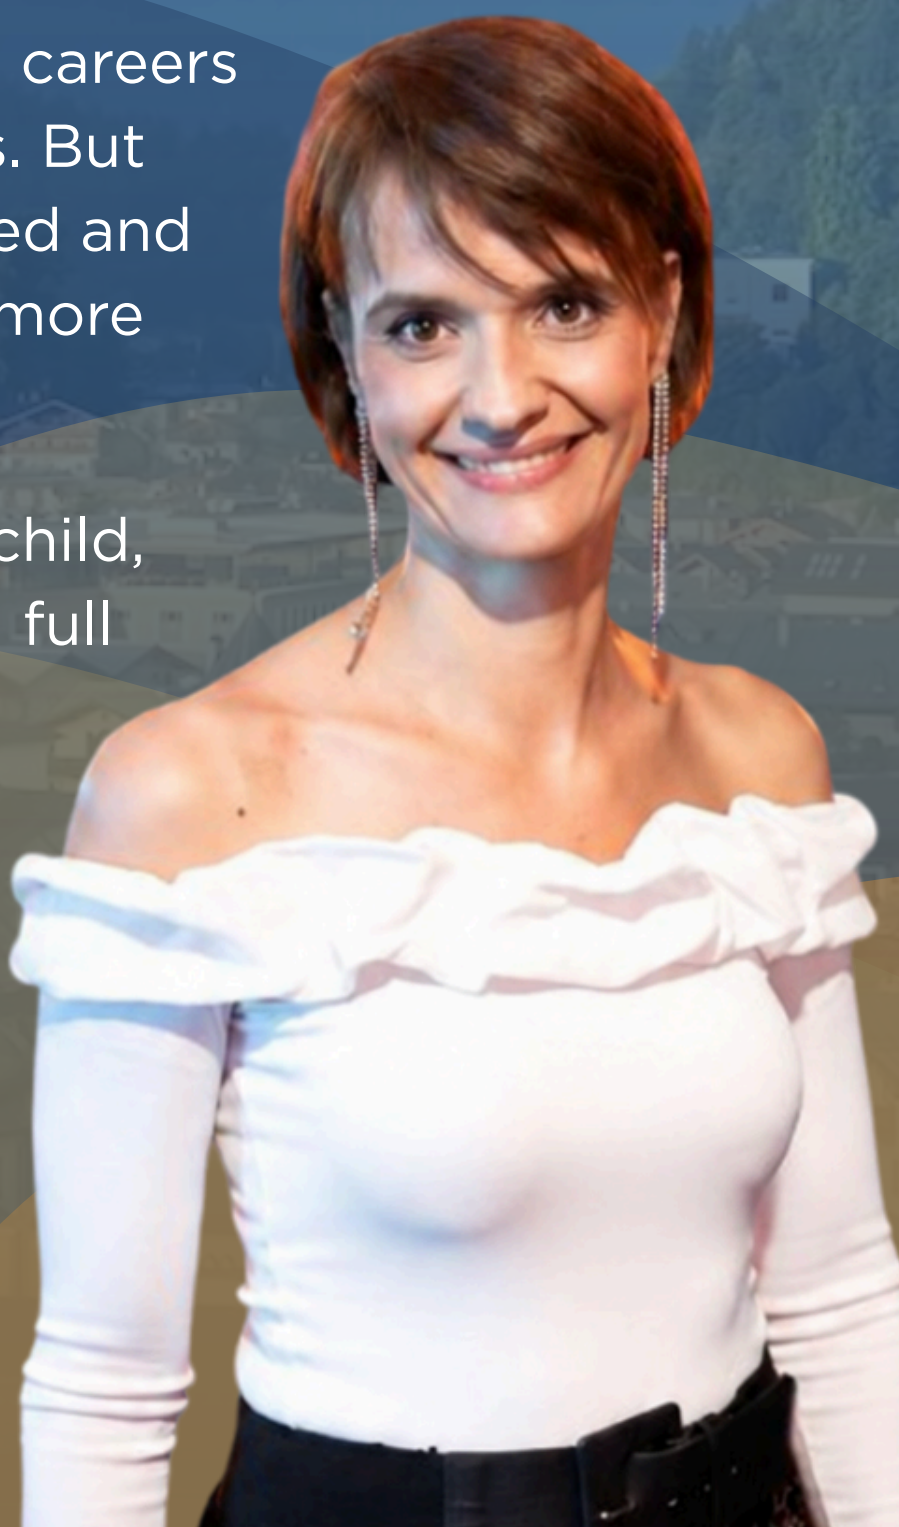

ZSUZSA VÁCZI

FOUNDERS SAPPHIRE

Zsuzsa Váczi and her husband, **Krisztián Szabados**, live near Budapest with their two sons. While Zsuzsa works as an economist and Krisztián as a mechanical engineer, they successfully build their **Amway business** alongside their careers.

At first, they believed their professional careers would be enough to achieve their goals. But they realized that the world had changed and that **new paths** were needed to create more **freedom** and **security**.

When Zsuzsa was expecting their first child, they decided to build the business with full **commitment** and continued to grow it alongside family life with two children.

> **We’re halfway to freedom!**
